

WEST VIRGINIA INFRASTRUCTURE HUB

REGIONAL TRANSPORTATION WORKSHOP

Martinsburg, WV

August 1, 2024

Welcome

Gehan Elsayed, Ph.D., P.E.

**Chief Engineer on Planning and Program Implementation and
WV Infrastructure Coordinator, WVDOH/WVDOT**

Workshop Goals

- ▶ **Provide information about the infrastructure hub**
- ▶ **Hear from you about the region's transportation priorities and projects**
- ▶ **Share information with you about the available grant opportunities**

Agenda

West Virginia Infrastructure Hub Overview – Dr. Gehan Elsayed, WVDOT – 15 minutes

Regional Overview – Matt Mullenax, Hagerstown/Eastern Panhandle Metropolitan Planning Organization – 20 minutes

Major Transportation Grants Overview —Hub Team: Andy Waple, Ashley Tracy, and Dennis Simpson – 30 minutes

Break – 10 minutes

Non-Traditional Transportation Grants – Tim Sedosky, West Virginia Department of Highways – 20 minutes

Interactive Discussion, Project and Grant Program Matching – 35 minutes

Wrap up – Dr. Gehan Elsayed, WVDOT – 5 minutes

West Virginia Infrastructure Hub Overview

Dr. Gehan Elsayed, Ph.D., P.E.

Chief Engineer on Planning and Program Implementation and
WV Infrastructure Coordinator, WVDOH/WVDOT

WEST VIRGINIA

Governor Jim Justice

“ The recent federal infrastructure bills offer an opportunity to tackle long-standing West Virginia Infrastructure issues. Let's use this tool to work together, strategically apply for grant funds, and **leave no stone unturned.** ”

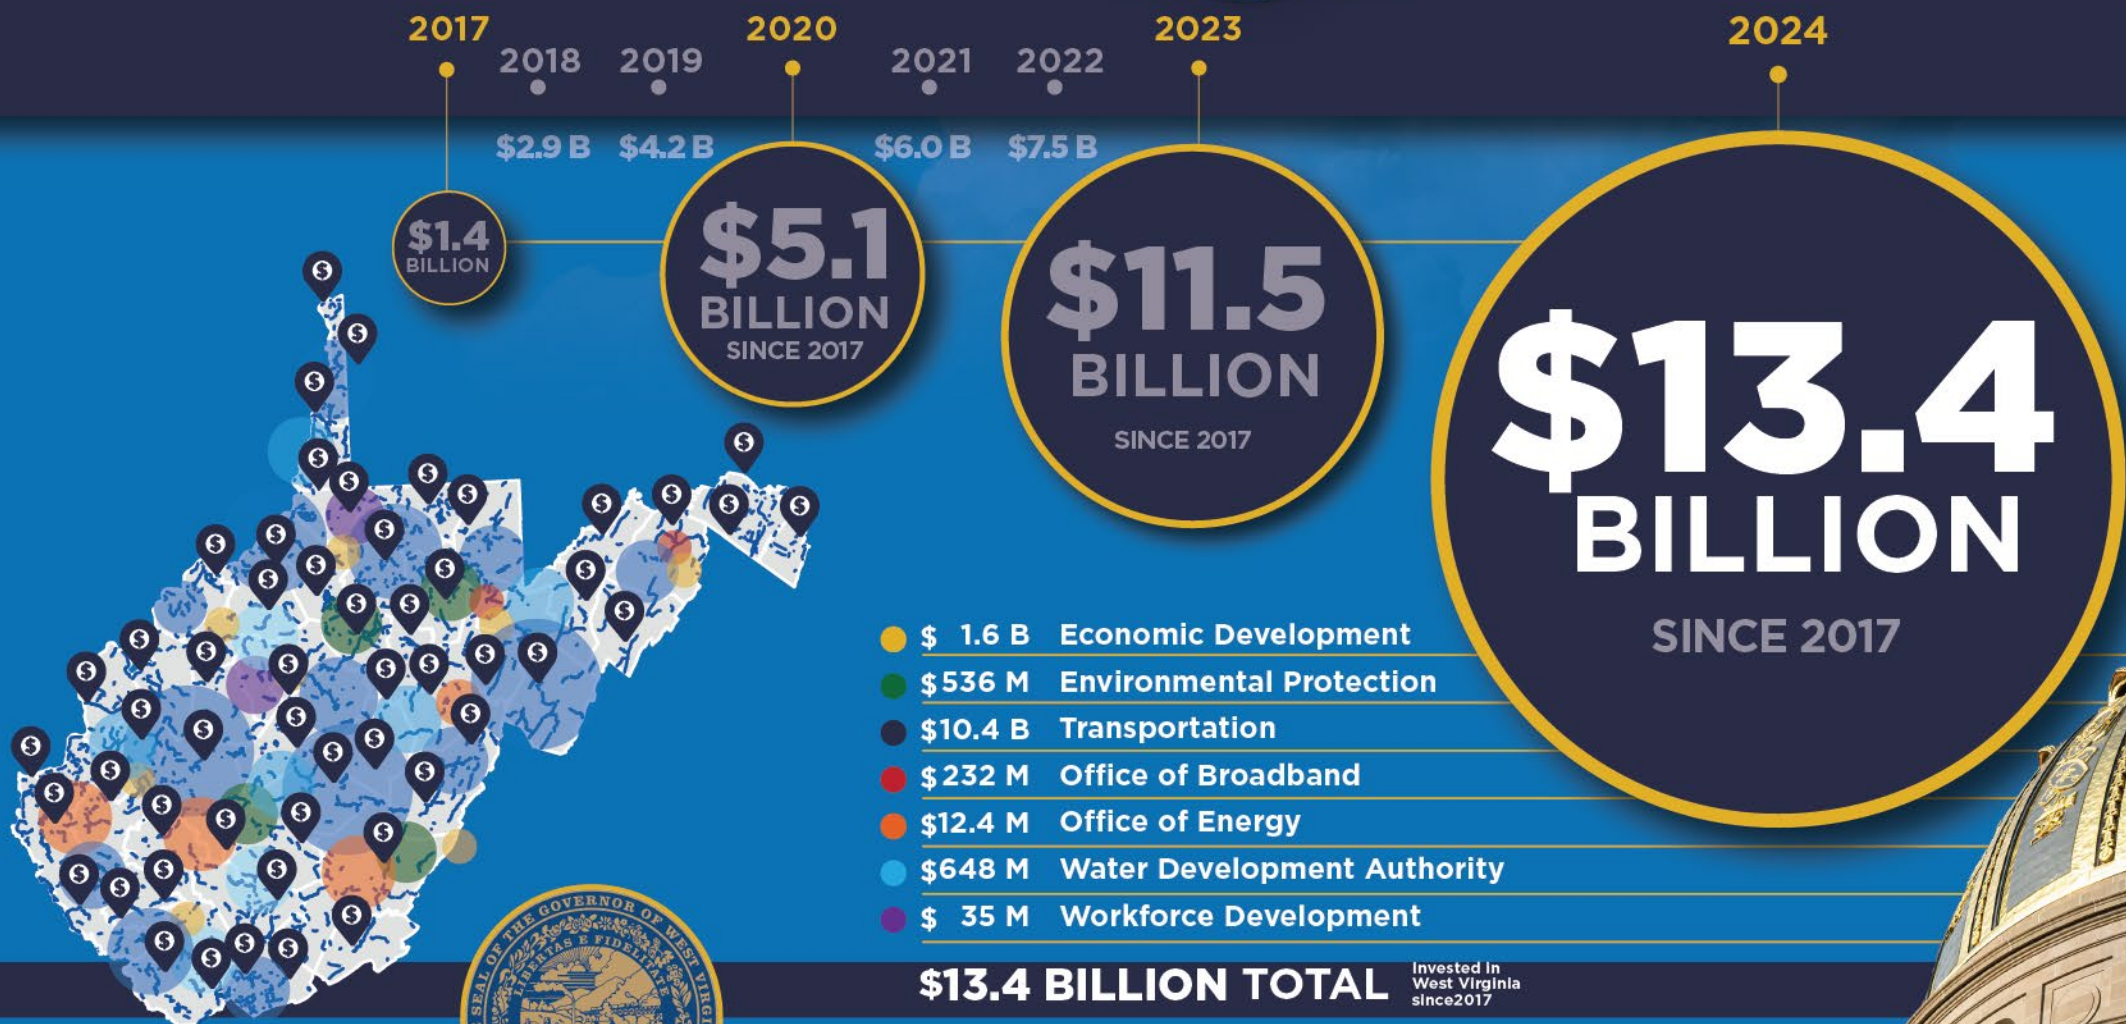

Maximizing funding brought into the State of West Virginia by:

- ▶ Identifying all related IIJA and IRA grant opportunities
- ▶ Rescoping existing projects to increase competitiveness
- ▶ Developing new project ideas that fit grant program criteria
- ▶ Writing and supporting grant applications
- ▶ Supporting the management of grant programs awarded to the State and its stakeholders
- ▶ Creating websites and dashboards of the State's efforts, while making local resources available to WV stakeholders

COMMITTED TO BUILDING

A STRONG WEST VIRGINIA

ALLOCATED TO
WEST VIRGINIA through FORMULA FUNDS

- \$3 BILLION for HIGHWAYS
- \$1.2 BILLION for BROADBAND
- \$506 MILLION for BRIDGES
- \$487 MILLION for CLEAN DRINKING WATER
- \$190 MILLION for PUBLIC TRANSPORTATION
- \$46 MILLION for EV INFRASTRUCTURE
- \$44 MILLION for AIRPORTS
- \$14 MILLION for CYBERSECURITY
- \$11 MILLION for WILDFIRES PROTECTION

IIJA FEDERAL-STATE FORMULA FUNDING PROCESS

STEP 1

FEDERAL BUDGET APPROVED & FUNDING ESTIMATED

1. Federal agencies develop expected formula funding amounts to state agencies, as approved in the federal budget.

STEP 2

PROGRAMS DESIGNED & PLANNED

1. State agencies which qualify for formula funds must design and plan programs showing how the funds will be used.
2. The federal agencies overseeing the funding distribution review the state agencies' plans and programs.

STEP 3

PROJECTS ANNOUNCED

1. Formula funds are authorized to be used by state agencies once plans and programs are approved, but no money is sent to state agencies yet.
2. State agencies select specific projects identified in the federally-approved plans and programs for implementation. Once selected, these projects are considered 'announced'.

The state agency must identify required non-federal matching funds to spend federal formula funds.

STEP 4

PROJECTS AWARDED & FUNDS RECEIVED

1. Contracts are established between the federal agency and the state to ensure the projects will be delivered per program requirements.
2. A contractor is selected and the project is implemented (which usually means construction). The project is now considered 'awarded'.
3. The federal agency reimburses the state agency as project costs are incurred.

Competitive Grant Funds

For West Virginia

Competitive Grant Funds For West Virginia

Competitive Grant Funds

STEP 1

FEDERAL BUDGET APPROVED & FUNDING ESTIMATED

1. Federal agencies receive their annual allotments for discretionary grant programs through the federal budget.

★ WHAT CAN YOU DO?

Identify priority projects that you want to seek funding on and identify local matching funds.

The West Virginia Infrastructure Hub can work with you to determine if existing programs are available to provide funding for your priority projects.

Check out the opportunity tracker for new grant opportunities.

STEP 2

GRANT APPLICATION PROCESS OPENED

1. State agencies which qualify for formula funds must design and plan programs showing how the funds will be used.
2. The federal agencies overseeing the funding distribution review the state agencies' plans and programs.

★ WE ARE HERE TO HELP!

The West Virginia Infrastructure Hub is tracking and alerting state agencies to new NOFOs every week.

STEP 3

APPLY

1. After NOFOs are released, eligible organizations develop and submit project grant applications based on requirements.

★ TIPS:

Collect letters of support that show a variety of elected officials, agencies and the private sector support for your project.

Demonstrate why and how your project meets or exceeds the selection criteria and is a good investment of taxpayer funds.

STEP 4

SELECTED & ANNOUNCED

1. The federal agency selects and announces grant winners. No funds are sent to the winning applicant yet.
2. Contracts are established between the applicant and the federal agency to ensure projects are delivered per program requirements. It is possible that the state will administer the funds, and a contract between the state and the applicant will also have to be established.

★ LET THE HUB KNOW!

The WV Hub team wants to celebrate successes and showcase winning projects around the state.

STEP 5

PROJECTS AWARDED & FUNDS RECEIVED

1. A contractor is selected and the project is implemented (which usually means construction). The project is now considered 'awarded'.

\$ FEDERAL FUNDING RECEIVED

The federal agency reimburses the state agency or grant awardee as project costs are incurred.

\$124.2 Million in awards (July 2024)

- ▶ **\$25M RAISE, Charleston** – Complete streets project, reconstructing Kanawha Boulevard and Greenbrier St., multi-modal transportation upgrades
- ▶ **\$10.5M RAISE, Beckley** – Complete streets, traffic improvements, active transportation upgrades
- ▶ **\$1.3M RAISE, Westover** – Planning grant, examining multi-modal corridor upgrades
- ▶ **\$87.5M Large BIP, Market Street Bridge** – Full replacement of Market Street Bridge, connecting West Virginia to Ohio.

\$1.9M SAFE STREETS FOR ALL

Six communities were selected in the first round of the program to create **Comprehensive Safety Action Plans**.

- ▶ Bluefield - \$398,000 – Comprehensive Safety Action Plan
- ▶ Clarksburg - \$200,000
- ▶ New Martinsville - \$250,000
- ▶ Kyova - \$640,000
- ▶ Charleston - \$200,000
- ▶ Fayette/Raleigh - \$199,000

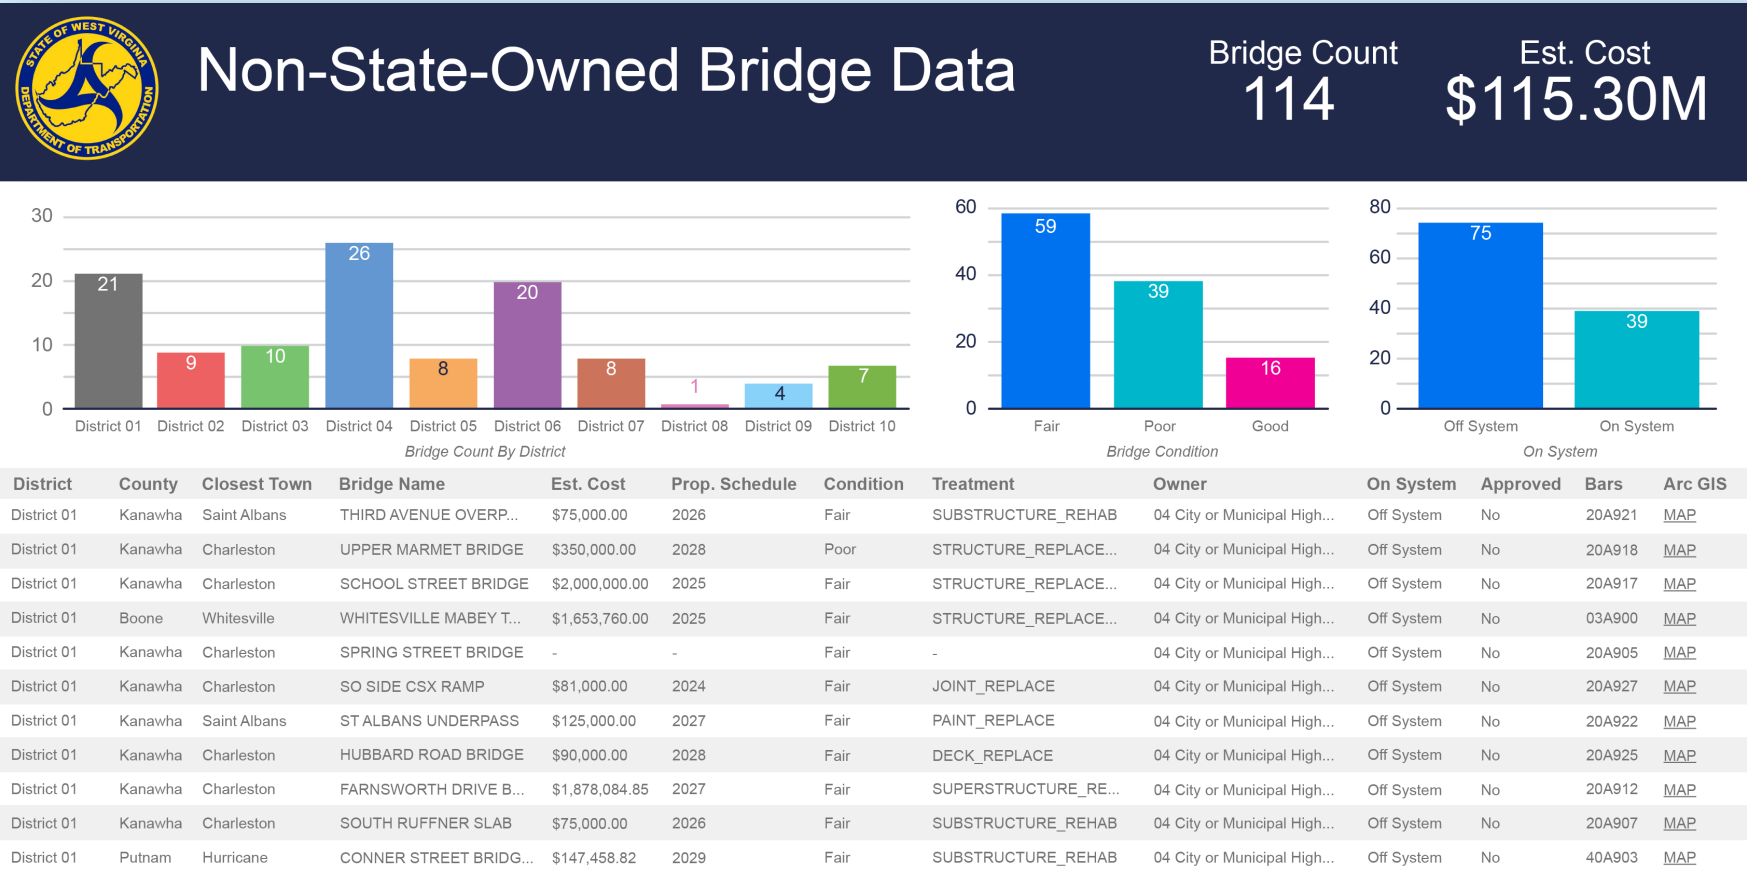

IIJA Opportunities

Recent Accomplishments

\$550 Million in Bridge Funding

15% of the total allocation to off-system bridges, which include city bridges or other spans not owned by the WVDOT.

IIJA OPPORTUNITIES

RECENT ACCOMPLISHMENTS

- ▶ **\$25M, Coalfield Project**
- ▶ **\$16.2M, Wheeling Streetscape Project**
- ▶ **\$ 13.4M, Bluefield Intermodal Facility**

\$1M for Reconnecting Communities Project - Bluefield

- ▶ Preliminary plans and environmental documents for a future to corridor to expand and enhance access and transit between the East End, downtown Bluefield, and local amenities.

CURRENT GRANT EFFORTS

The Hub Team is currently tracking and supporting over 121 grant applications with a total value of over \$3 billion in requests

Agency	2024 Pending, Submitted, and Awarded Grant Applications	Total Request Amounts of 2024 Grant Applications
Energy	13	\$968 million
Broadband	8	\$1.2 billion
Emergency Management	4	\$114 million
Tourism	20 partnership opportunities	\$222 million (in partnerships)
Transportation	30+	\$1+ billion
Economic Development	3	\$2.8 million
Workforce Development	11	\$12 million
Environmental Protection	32	\$300+ million
Total:	121 grant applications	\$3.8 billion in Grant Requests

HEPMPO SPECIAL STUDIES

The Region - Population

- Population Estimate (7/1/23): 192,227
 - Berkeley County - 132,440
 - Jefferson County - 59,787
- Top two population growth counties in West Virginia.
- Berkeley County has 2nd highest population but ranks 41st in area (of 55).
- Martinsburg is largest city with population of 18,935 (6th largest in West Virginia).

The Region - Top Employers

Berkeley County Top Employers	Jefferson County Top Employers
Berkeley County Board of Education	Jefferson County Board of Education
United States Department of Veterans Affairs	PNGI Charles Town Gaming, LLC
Macy's Corporate Services, Inc.	IRS Data Center
WVU Medicine	Shepherd University
The Procter & Gamble Manufacturing Company	American Public University System, Inc.
Quad/Graphics, Inc.	WVU Medicine
Wal-Mart	Wal-Mart
Orgill, Inc.	Homeland Security
Berkeley County Commission	Jefferson County Commission
Giant Food Stores, LLC	American Public Education, Inc.

The Region - 2050 Forecasts

Jurisdiction	Annual Growth Rate			2050 Forecasted Trends		
	Population	Households	Employment	Population	Households	Employment
Berkeley	1.42%	1.30%	1.58%	183,852	73,752	84,266
Jefferson	1.01%	0.88%	1.23%	78,261	32,207	37,497

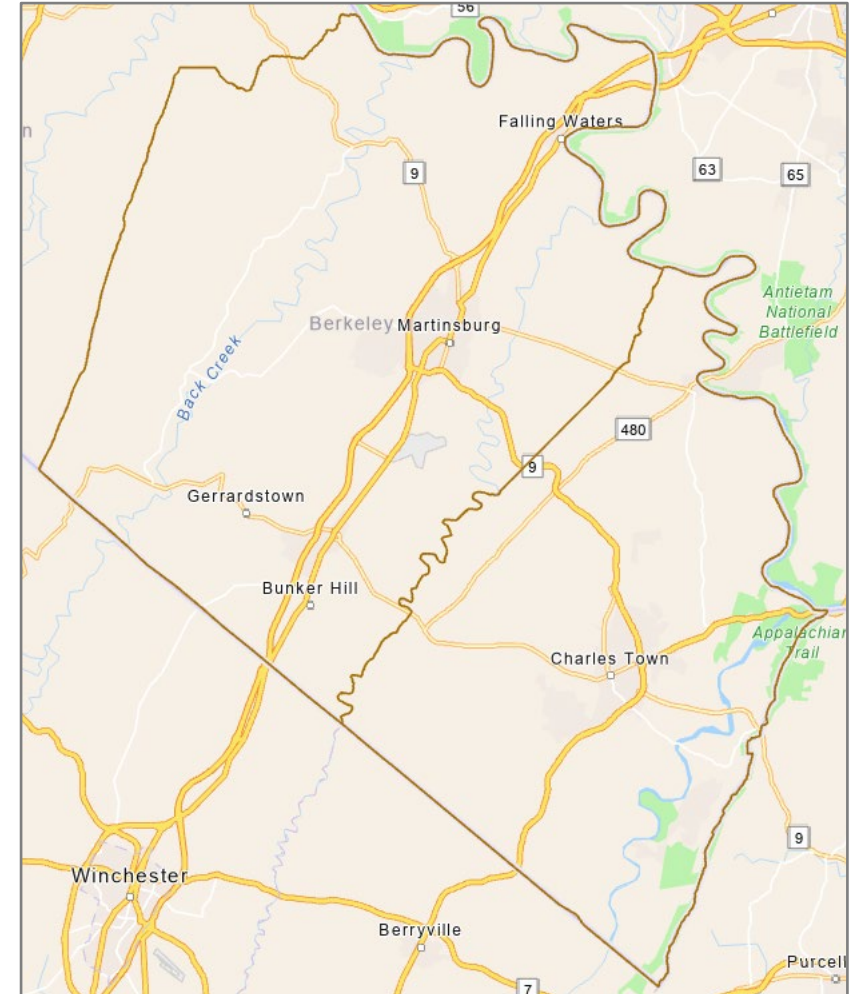

The Region - Areas of Interest

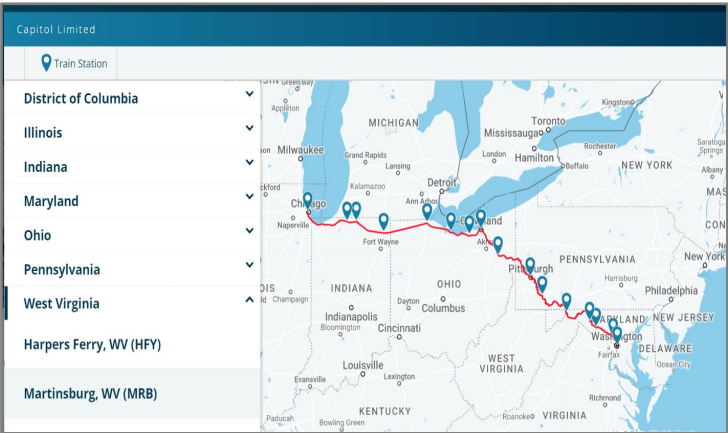

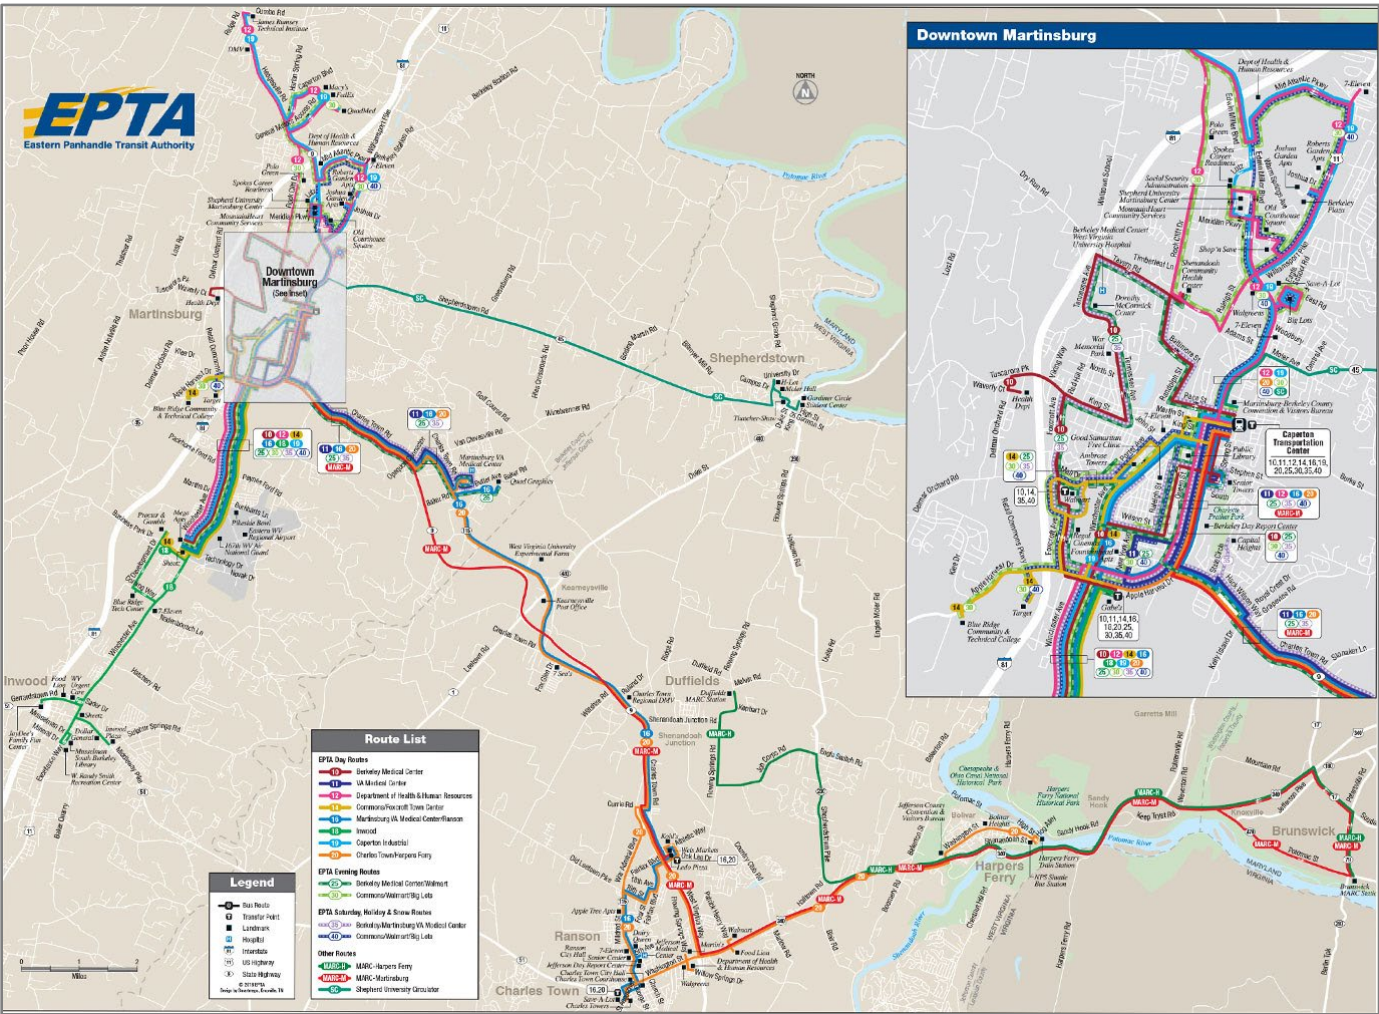

- Harpers Ferry National Historical Park
- Appalachian National Scenic Trail
- Borders C&O Canal National Historical Park (Shepherdstown, Harpers Ferry, Bolivar)
- Potomac River, Shenandoah River
- Shepherd University
- MRB Airport
- Jefferson County Courthouse
- Martinsburg Roundhouse

Transportation – Grants

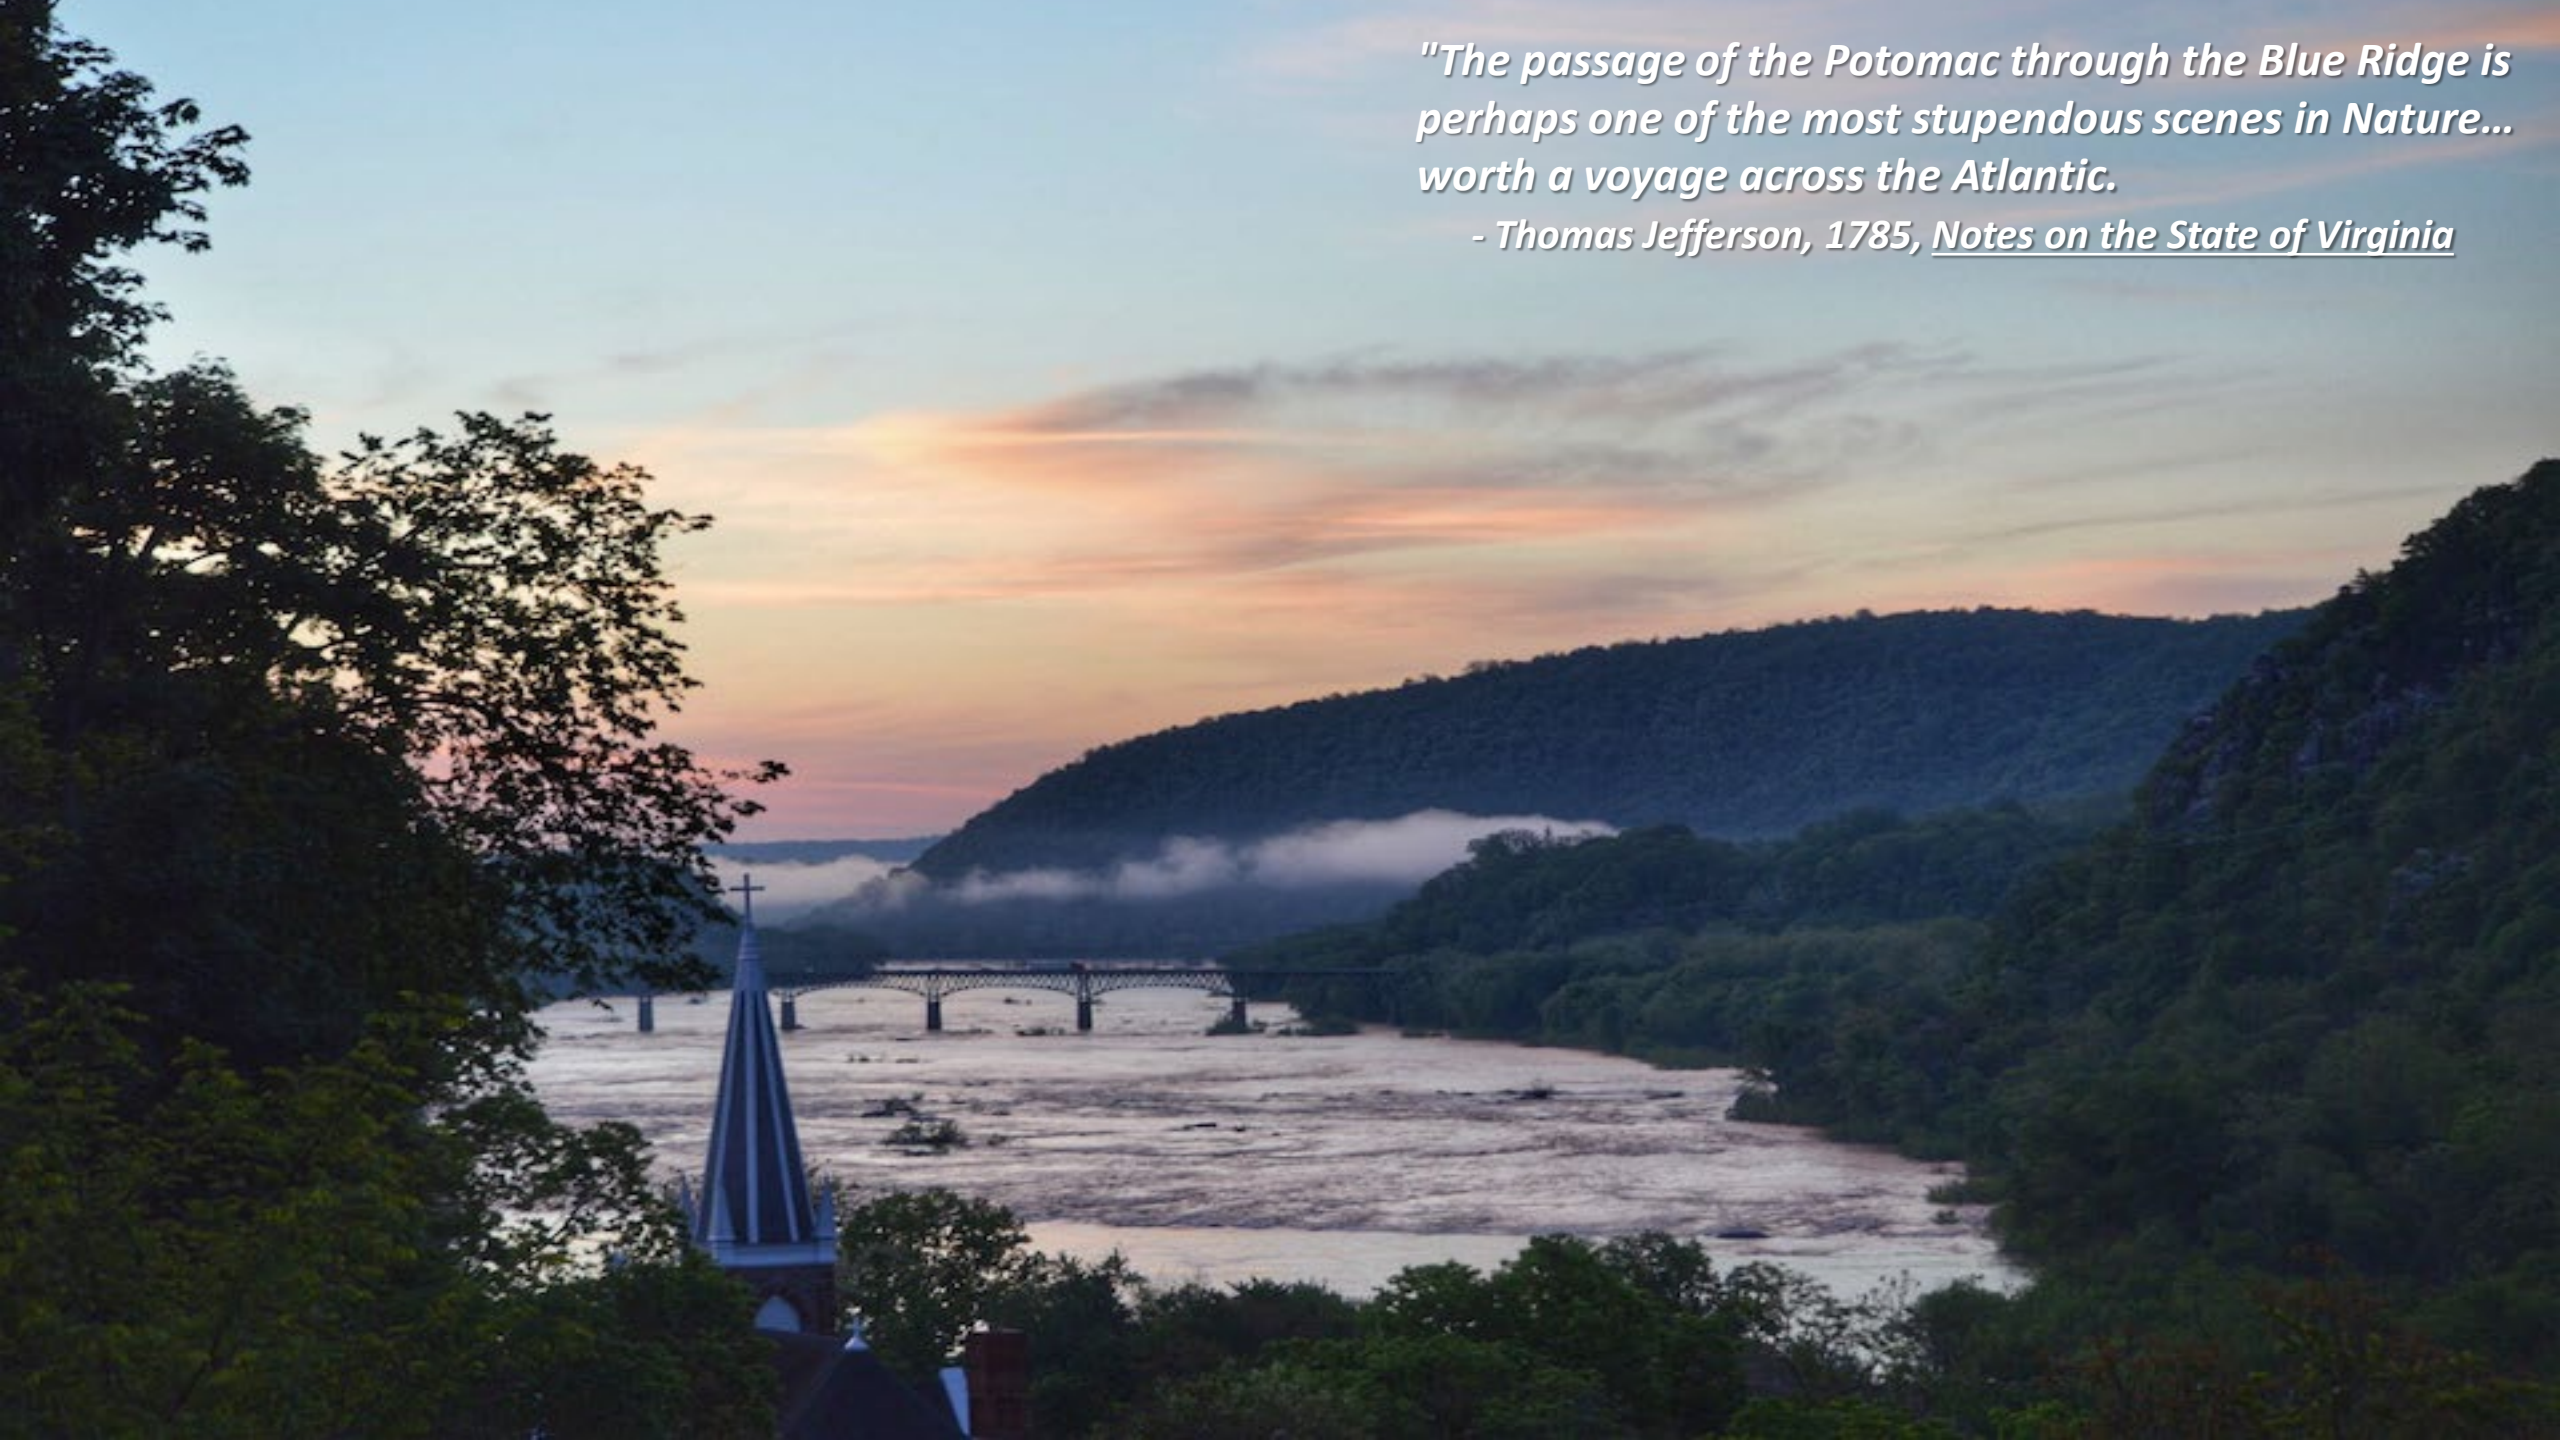

HEPMPO Special Studies

"The passage of the Potomac through the Blue Ridge is perhaps one of the most stupendous scenes in Nature... worth a voyage across the Atlantic."

- Thomas Jefferson, 1785, Notes on the State of Virginia

Transportation Grants Overview

Andy Waple, Ashley Tracy, and Dennis Simpson

AECOM, HUB Team

Overview

- ▶ Infrastructure Investment and Jobs Act (IIJA) provides \$350 billion for federal highway programs (\$567 billion for all modes) over five-year period (2022-2026)
- ▶ \$100 billion in discretionary grant opportunities awarded on a competitive basis
- ▶ Each program issues Notice of Funding Opportunity (NOFO) that outlines the details of the program, its requirements, and application instructions
- ▶ Funds typically awarded on a yearly basis for each program

Multimodal Project Discretionary Grant (MPDG) Program

Program Purpose: Invest in surface transportation infrastructure projects of national or regional significance or improve/expand infrastructure in rural areas. Projects must be consistent with the Department's strategic goals: improve safety, economic strength and global competitiveness, equity, and climate and sustainability.

Eligible Activities: Highway and bridge, intercity passenger rail, railway-highway grade crossing or separation, wildlife crossing, public transportation, marine highway, and freight projects

Eligible Applicants: States, MPOs, local governments, special districts or authorities, tribal governments, federal land management agencies

Award Thresholds: Mega Large: >\$500M, Small: \$100-500M; INFRA Large: >\$100M, Small <\$100M; Rural: None but will be evaluated separately >\$25M and <\$25

Match Requirements: Mega and INFRA – 20% non-federal total project cost, Rural 80% (option for 100% federal share)

Rebuilding American Infrastructure with Sustainability and Equity (RAISE)

Program Purpose: Planning or constructing surface transportation infrastructure projects that will improve safety; environmental sustainability; quality of life; mobility and community connectivity; economic competitiveness and opportunity including tourism; state of good repair

Eligible Activities: Roads and bridges, active transportation, public transportation, rail, ports, intermodal facilities, stormwater management

Eligible Applicants: States, local governments, public agencies, special districts or authorities, transit agencies, tribal governments,

Award Thresholds: Capital Projects - Minimum \$5M (urban areas), \$1M (rural areas); Maximum \$25M. No minimum for planning

Match Requirements: 20%; if project is in area of persistent poverty or a historically disadvantaged community – no match required

Safe Streets and Roads for All (SS4A)

Program Purpose: Supports local initiatives to prevent death and serious injury on roads and streets, commonly referred to as "Vision Zero" or "Toward Zero Deaths" initiatives.

Eligible Activities: Develop a comprehensive safety action plan; conduct planning, design, and development activities for projects and strategies identified in a comprehensive safety action plan; or carry out projects and strategies identified in a comprehensive safety action plan

Eligible Applicants: Local governments, MPOs, tribal governments, multijurisdictional groups of entities

Award Thresholds: Planning and Demonstration – minimum \$100K, maximum \$10M; Capital Grants: minimum \$2.5M, maximum \$25M

Match Requirements: 20%; non-Federal match required

Active Transportation Infrastructure Investment Program (ATIIP)

Program Purpose: Plan, design and construct projects that provide safe and connected active transportation facilities in active networks or active transportation spines.

Eligible Activities: Planning, designing, and constructing active transportation *networks* and active transportation *spines*. Active transportation *networks connect between destinations*, including schools, workplaces, residences, businesses, recreation areas, medical facilities, and other community areas . Active transportation *spines connect communities, metropolitan regions, or States*.

Eligible Applicants: States, local governments, MPOs, tribal governments, multijurisdictional groups of entities

Award Thresholds: Planning and Design – minimum \$100K, maximum \$2M; Capital Grants: minimum \$7.5M, maximum \$15M

Match Requirements: 20% non-Federal match required (areas with >40% poverty rate by census tract eligible for 100% federal share)

Reconnecting Communities and Neighborhoods (RCN/RCP)

Program Purpose: address a highway or other transportation facility that creates a barrier to community connectivity, including barriers to mobility, access, or economic development, due to high speeds, grade separations, or other design factors.

Eligible Activities: Planning studies to evaluate the feasibility of removing, retrofitting, or mitigating an existing eligible facility to restore community connectivity, including potential safety, environmental, mobility, and economic effects. The removal, retrofit, or mitigation of an eligible facility; and the replacement of an eligible facility with a new facility that restores community connectivity, and is sensitive to the context of the surrounding community.

Eligible Applicants: States, local governments, Federally recognized Tribal governments, MPOs, Nonprofit organizations

Award Thresholds: maximum planning grant: \$2M; capital grants - \$5M minimum, \$100M maximum

Match Requirements: 20% planning applications; 50% construction applications (other federal funds may be used to reduce to 20%)

Bridge Investment Program (BIP)

Program Purpose: Improve bridge condition and the safety, efficiency, and reliability of the movement of people and freight over bridges by reducing the overall number of bridges in poor condition, or in fair condition at risk of falling into poor condition

Eligible Activities: Construction, reconstruction, rehabilitation, acquisition of real property, environmental mitigation, construction contingencies, acquisition of equipment, and operational improvements directly related to improving system performance; and expenses related to the protection of a bridge, including seismic or scour protection. planning, feasibility analyses, and revenue forecasting.

Eligible Applicants: States, MPOs (over 200,000 in population), local governments, special districts or authorities, tribal governments, federal land management agencies

Award Thresholds: Large program: \$100M minimum; Bridge program \$100M maximum

Match Requirements: Up to 50% for Large Bridge Projects ($\geq \$100M$); up to 80% for Bridge Projects ($\leq \$100M$); up to 90% for off-system bridges

Charging and Fueling Infrastructure Grant Program

Program Purpose: Strategically deploy publicly accessible electric vehicle charging and alternative fueling infrastructure in the places people live and work in addition to along designated Alternative Fuel Corridors.

Eligible Activities: Community Charging and Fueling Program Grants (Community Program), to strategically deploy alternative fueling infrastructure (electric, hydrogen, propane, and natural gas) located on public roads or in other publicly accessible locations.

The Alternative Fuel Corridor Grants (Corridor Program), to strategically deploy charging and alternative fueling infrastructure located along designated alternative fuel corridors.

Eligible Applicants: States, local governments, special districts or authorities with transportation responsibilities, Federally recognized Tribal governments, MPOs, Nonprofit organizations

Award Thresholds: minimum: \$500K, maximum \$15M (Community); minimum: \$1M, no maximum (Corridors)

Match Requirements: 20%

Nationally Significant Federal Lands and Tribal Projects (NSFLTP) Program

Program Purpose: Provides funding for the construction, reconstruction, and rehabilitation of nationally significant projects on Federal or Tribal lands.

Eligible Activities: Projects of national significance for construction, reconstruction, or rehabilitation of transportation facilities within, adjacent to, or providing access to Federal or Tribal lands

Eligible Applicants: Federal Land Management Agencies (FLMA); Tribal Governments; A State, county, or unit of local government may apply for funding under the NSFLTP Program only if sponsored by an eligible Federal Land Management Agency (FLMA) or federally recognized Tribe.

Award Thresholds: Minimum: \$12.5M

Match Requirements: 10% of total project cost for non-Tribal Lands; No match for Tribal projects

Promoting Resilient Operations for Transformative, Efficient, and Cost-Saving Transportation (PROTECT)

Program Purpose: help make surface transportation more resilient to natural hazards, including climate change, sea level rise, flooding, extreme weather events, and other natural disasters through support of planning activities, resilience improvements, community resilience and evacuation routes.

Eligible Activities: Highway, transit, and certain port projects that include resilience planning, strengthening and protecting evacuation routes, enabling communities to address vulnerabilities and increasing the resilience of surface transportation infrastructure from the impacts of flooding, wildfires, extreme weather events, and other natural disasters.

Eligible Applicants: States, local governments, special districts or authorities with transportation responsibilities, Federally recognized Tribal governments, Federal land management agencies, MPOs

Award Thresholds: Planning grant: \$100K minimum; Capital grant: \$500K minimum

Match Requirements: Planning grants: no match; Capital grants: 20% non-Federal match

Building Resilient Infrastructure and Communities (BRIC)

Program Purpose: Incentivize natural hazard risk reduction activities that mitigate risk to public infrastructure; Incorporate nature-based solutions including those designed to reduce carbon emissions; Enhance climate resilience and adaptation

Eligible Activities: Cost-effective projects designed to increase resilience and public safety; reduce injuries and loss of life; and reduce damage and destruction to property, critical services, facilities, and infrastructure (including natural systems) from a multitude of natural hazards, including drought, wildfire, earthquakes, extreme heat, and the effects of climate change

Eligible Applicants: Must apply through WV Emergency Management. There are formula funds (\$2M/state) that get programmed to state and local projects and a national discretionary grant competition (approximately \$700M).

Match Requirements: Can submit unlimited number of applications but federal share capped at \$50M.

Consolidated Rail Infrastructure & Safety Improvements (CRISI)

Program Purpose: Invests in railroad infrastructure projects that improve safety, support economic vitality, create good-paying jobs, increase capacity and supply chain resilience, apply innovative technology, and address climate change and equity.

Eligible Activities: Improve railroad safety, efficiency, and reliability; mitigate congestion at rail chokepoints to support more efficient travel and goods movement; enhance multimodal connections; and lead to new or substantially improved Intercity Passenger Rail Transportation corridors.

Eligible Applicants: States, public agencies; political subdivision of a State; Amtrak or another rail carrier that provides intercity rail passenger transportation; Class II or III railroad; federally recognized Indian Tribe; University transportation center; non-profit labor organization representing employees of rail carriers or rail carrier contractors.

Award Thresholds: Minimum: \$12.5M

Match Requirements: 20% of total project cost

Railroad Crossing Elimination (RCE) Program

Program Purpose: Funding for highway-rail or pathway-rail grade crossing improvement projects that focus on improving the safety and mobility of people and goods.

Eligible Activities: Highway-Rail or Pathway-Rail Grade Crossing Improvement Projects including grade separation, track relocation, protective devices (signals, signage, etc.) technological solutions, planning/design/environmental review of a proposed project

Eligible Applicants: States, political subdivision of a State, federally recognized Indian Tribe, unit of local government or a group of local governments, a public port authority, MPOs

Award Thresholds: Minimum: \$1M except for planning

Match Requirements: 20% of total project cost

Break – 10 minutes

Non-Traditional Transportation Grants

Tim Sedosky

Local Program Services Section Head, WV Department of Highways

Transportation Alternatives/Recreational Trails Program

EASTERN PANHANDLE REGIONAL WORKSHOP

August 1, 2024

West Virginia
Division of Highways

Transportation Alternatives (TA)/ Recreational Trails Program (RTP)

- Transportation Alternatives (TA) Eligible Projects :
 - A **reimbursable** program for non-traditional transportation projects.
 - Includes funding for design and construction.
 - On road and off-road trail facilities connecting two points for pedestrians, bicyclists and users of other nonmotorized.
 - Sidewalks, bicycle infrastructure, pedestrian & bicycle signals, traffic calming techniques, lighting, and other safety related infrastructure.
 - Conversion of abandoned railroad corridors for trails.
 - Turnouts, overlooks and viewing areas, inventory, control or removal of outdoor advertising, historic preservation and rehabilitation of historic transportation facilities and environmental mitigation activities.

Transportation Alternatives (TA)/ Recreational Trails Program (RTP)

- Recreational Trails Program (RTP) Eligible Projects:
 - Maintenance and/or restoration of existing trails.
 - Development and/or rehabilitation of trailside and trailhead facilities and trail linkages.
 - Purchase and/or lease of trail construction and maintenance equipment.
 - Acquisition of easements or property for trails (willing seller only: Condemnation is prohibited).
 - Operation of education programs to promote safety and environmental protection related to trails.
 - Assessment of trail conditions for accessibility.
 - Construction of new trails (with restrictions for new trails on Federal lands).

FFY 2023/ Program Overview

63 TA applications requesting approximately \$20.4M Federal:

- Awarded 32 Projects for \$9.1M (\$10.2M apportionment)

21 RTP applications requesting approximately \$2.4M Federal:

- Awarded 8 Projects for \$1.2M (\$1.2M apportionment)

- On-line competitive grant application process.
- Timelines - Grant cycle dates for opening and closing.
- Eligibility – check your eligibility (TA nonprofit entity - New: restrictions removed).
- Matching requirements – 80% Federal / 20% Sponsor Match.
 - Cash Match. Force Account. Local Volunteers , ex. Trail Groups - “In-Kind”.
 - WVDOH Contract Administration – Cash Match in advance and WVDOH will Bid/Let/Oversee the project.
 - FHWA-encourages the use of contracts and co-operative agreements with qualified Youth Service and Conservation Corps.
 - Sponsor advertised project (still must meet federal requirements).

West Virginia
Division of Highways

Transportation Alternatives (TA)/ Recreational Trails Program (RTP)

- **FFY 2024 Grant Cycle**
- **Applicants Must Register**
 - Email with Press Release / Timeline
Dates will be sent to those registered
- **Intent to Apply Opening**
 - Open: Spring 2024
 - Close: Two – Three-week period
- **Application Deadline**
 - Close: ~ Two months

WVDOT Grants Application Frequently Asked Questions

1. [What is the Transportation Alternatives Set-Aside \(TA\)](#)

▼

2. [What is the Recreational Trails Program \(RTP\)?](#)

▼

3. [Who may apply?](#)

▼

4. [May an applicant apply for various phases of a project in one application cycle?](#)

▼

5. [What happens if federal money is spent and the project doesn't go to construction?](#)

▼

6. [How are the funds distributed throughout the state?](#)

▼

7. [How are the TA/RTP funds administered to the grant recipients during the project?](#)

▼

8. [Is there a way an application may be eligible for 100% federal funding?](#)

▼

West Virginia
Division of Highways

Application Tips

- Clearly defined scope of work, project description and termini;
- Environmental considerations, ex. permitting, archeology study
- Previous studies, reports;
- Map outlining work limits;
- Quality updated photographs;
- Previous studies, reports, etc.
- Detailed cost estimate;
- Right-of-way secured or, at minimum, considered;
- Letters of recommendation.

Less Competitive Applications

- “Sidewalks throughout Town”;
- Environmental considerations not accounted for;
- Utility relocation is major work item;
- Beautification only projects;
- Inadequate documentation;
- Insufficient funds being requested.

RTP Application Scoring

Recreational Trails Advisory Board Representatives

- Division of Natural Resources
- Department of Commerce
- Bicycle, outdoor enthusiasts
- Non-motorized and motorized representatives
- West Virginia DOT

Whispering Spruce Trail, Spruce Knob

DISCUSSION:

Project & Grant Program Matching

Moderated by the HUB team

What transportation projects would you be interested in getting funded?

What grant programs are you interested in learning more about?

Thank you!
