

WEST VIRGINIA INFRASTRUCTURE HUB

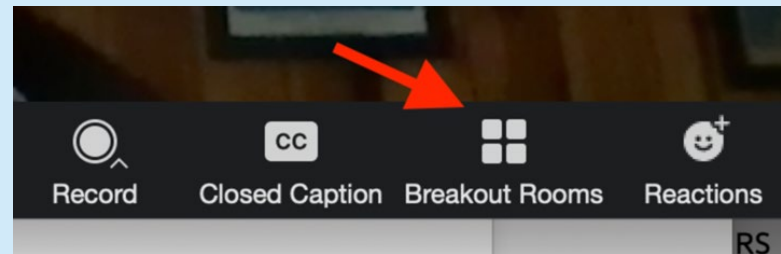

VIRTUAL RESILIENCY WORKSHOP

August 6, 2024

Please ensure you have the latest version of Zoom to access the Breakout Rooms.
To check for pending updates, go to: **Profile > Check for updates.**

Make sure you can see a “Breakout Rooms” icon at the bottom of your Zoom window. If you cannot, please update your version of Zoom and rejoin the meeting.

Housekeeping

1

As an attendee, your microphone will be muted during presentations. Please communicate with us through the chat feature.

2

We will address questions after content has been presented but you can submit a question at any time in chat.

3

Please state your name and affiliation when asking a question or making a comment.

4

Meeting is being recorded and a copy of the presentation will be posted to the Hub website and emailed to attendees.

Welcome

Cynthia Hartley

**Associate Vice President, Disaster Risk Reduction and Resilience
West Virginia Infrastructure Hub – AECOM**

Mission

Minimize the loss of life and property, maintain economic stability, and improve recovery time by coordinating with stakeholders to implement disaster resilient strategies.

State Resiliency Office Board

West Virginia
Conservation Agency

WEST VIRGINIA
DEPARTMENT of COMMERCE

State Resiliency Office Legislative Responsibilities

Communicate the state's resiliency priorities and progress towards meeting its objectives.

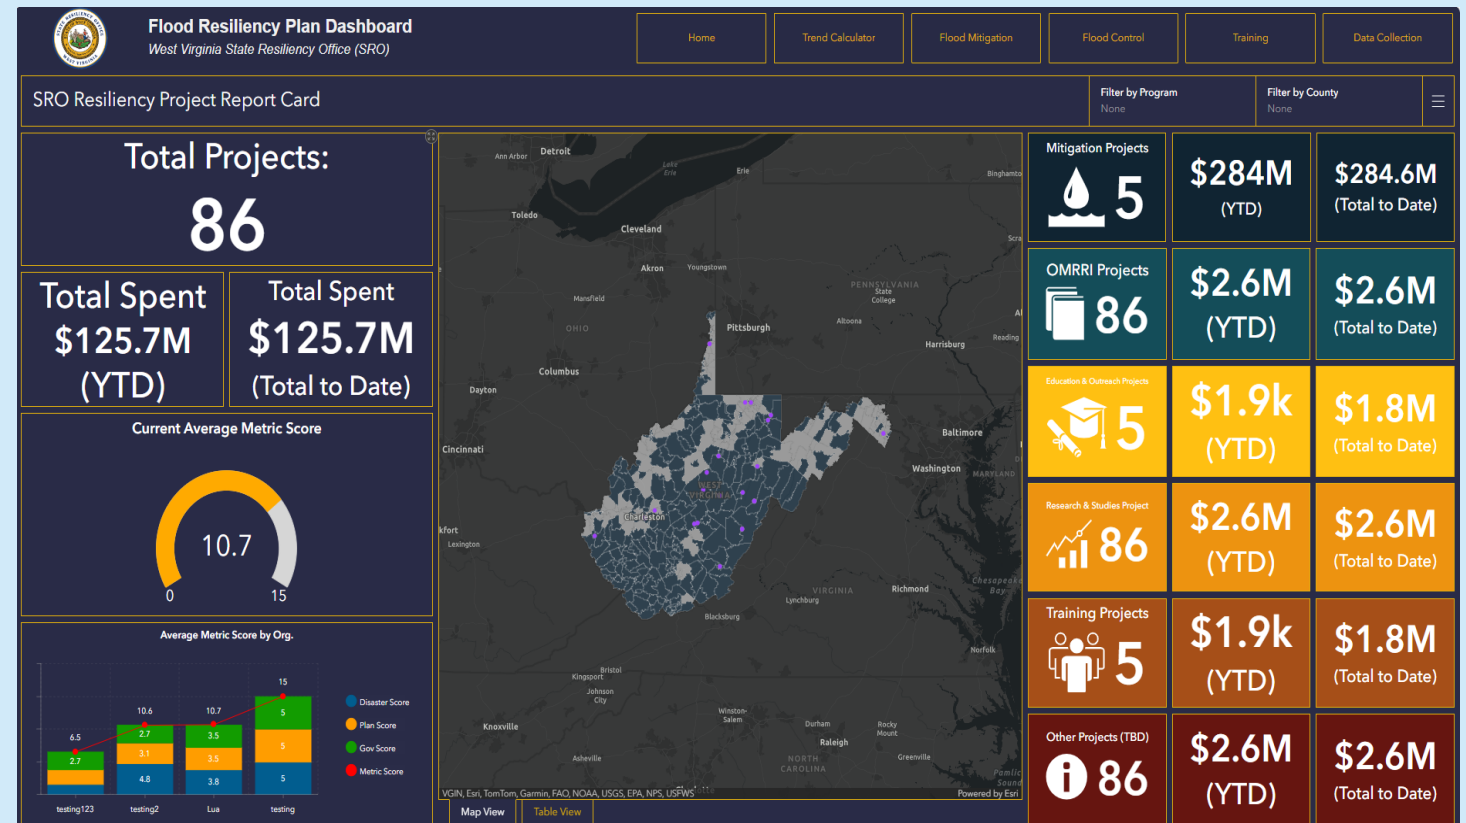

Strengthen the capacity of West Virginians to reduce flooding and increase resilience.

Monitor, pursue, and manage federal funds used for statewide and community resiliency efforts.

Coordinate flood mitigation and community resilience planning efforts at the local, state, and federal levels.

HMA Application Flow Process

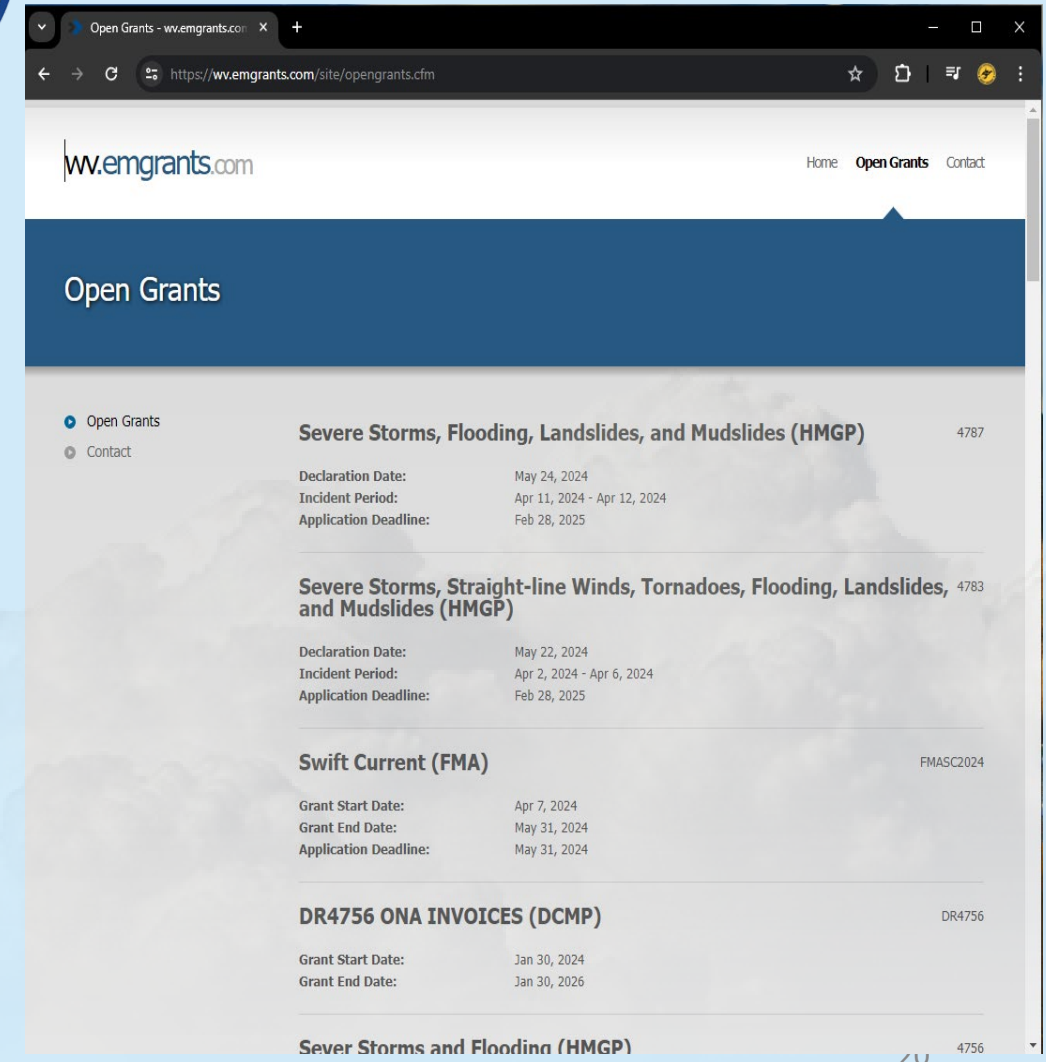

HMA Applications (ww.emgrants.com)

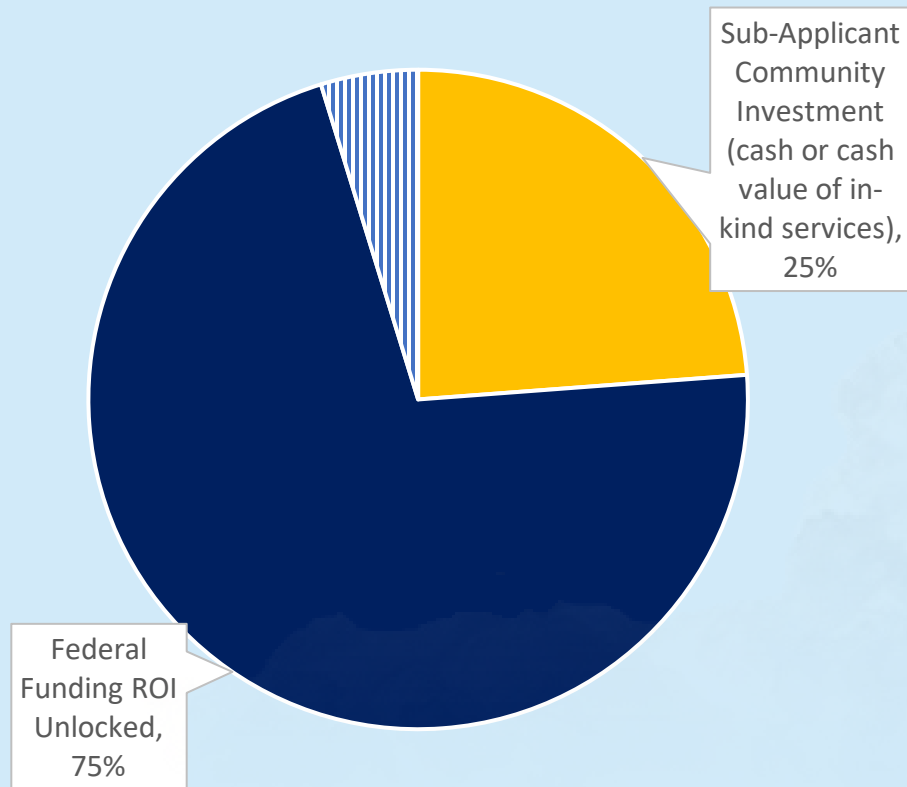

Basic components

- ▶ Applicant information: UEI
- ▶ Problem description
- ▶ Summary project information
- ▶ Scope of work
- ▶ Schedule
- ▶ Cost estimate: A budget for the project
- ▶ Cost-effectiveness: BCA, if required
- ▶ Environmental and historical considerations
- ▶ Supporting documentation
- ▶ NFS worksheet

Cost Share Unlocks Federal Funding

COST SHARE Example:

$$\begin{aligned} &\$62,500 \text{ Non-federal cost share} \\ &+ \\ &187,500 \text{ federal funding ROI} \\ &(\$12,500 \text{ is } \%5 \text{ sub-recipient Management Costs}) \\ &= \\ &\textbf{Total Project Award \$250k} \end{aligned}$$

Questions?

Breakout Sessions

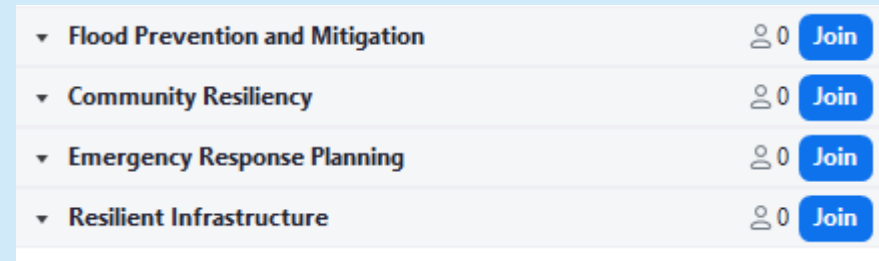

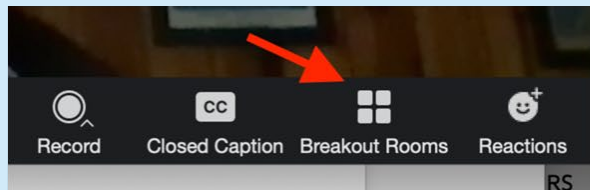

BREAKOUT TOPICS

- ▶ Flood Prevention and Mitigation
 - Lindsey Douglas and Christine Ventura
- ▶ Emergency Response Planning
 - Lexi Elio and Gabriel Reed
- ▶ Community Resiliency
 - Chelsey Smith and Andy Waple
- ▶ Resilient Infrastructure
 - Emily Marlow and Carey Barr

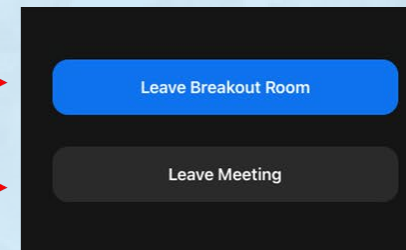

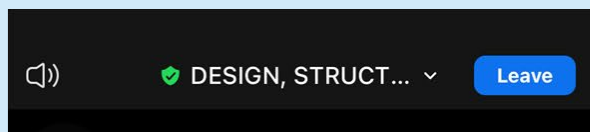

BREAKOUT TASKS

- ▶ Identify a person to report out – facilitators will be taking notes
- ▶ Learn about possible grant opportunities from our SME's
- ▶ Brainstorm projects and discuss possible sponsors and project readiness

HOW TO ACCESS A BREAKOUT ROOM

To leave a session:

Returns you to the main live presentation lobby.

Allows you to exit the meeting altogether.

Please mute your microphone upon entering a breakout room. You are free to enter and leave any breakout room you choose.

Report Out

Cynthia Hartley

**Associate Vice President, Disaster Risk Reduction and Resilience
West Virginia Infrastructure Hub – AECOM**

Hub Resources

Dr. Gehan Elsayed, Ph.D., P.E.

**Chief Engineer on Planning and Program Implementation and
West Virginia Infrastructure Coordinator, WVDOH/WVDOT**

Maximize funding brought into the State of West Virginia by:

- ▶ Identifying all related IIJA and IRA grant opportunities
- ▶ Rescoping existing projects to increase competitiveness
- ▶ Developing new project ideas that fit grant program criteria
- ▶ Writing and supporting grant applications
- ▶ Supporting the management of grant programs awarded to the State and its stakeholders
- ▶ Creating websites and dashboards of the State's efforts, while making local resources available to WV stakeholders

Discussion Questions

- ▶ What are the infrastructure needs of your organization?
 - ▶ How would you prioritize these needs?
- ▶ What infrastructure-related projects is your organization seeking funding for?
 - ▶ Where are these projects in the development process? (Planning, Feasibility, Construction, etc.)
- ▶ What are the greatest challenges your organization faces when applying for grants?
- ▶ What resources or support do you need to be successful in the grant process?

Flood Mitigation Assistance Grant

Program Summary

- Competitive grant initiative managed by the Federal Emergency Management Agency (FEMA)
- Aims to support projects that reduce or eliminate the risk of repetitive flood damage to buildings insured under the National Flood Insurance Program (NFIP).
- FEMA selects projects to fund based on severe repetitive loss (i.e., projects that will mitigate flood damage to at least 50 % of structures). Eligible activities for community flood mitigation projects must benefit NFIP insured properties.
- Types of projects include elevation, relocation, or floodproofing of NFIP-insured structures, minor localized flood reduction projects, community flood mitigation projects, flood hazard mitigation planning and building code activities.

Program Details

Application Period September 2024 – January 2025

Cost Share 10-25%

Eligibility State, Local, Tribal, and Territorial (SLTT) Governments with a FEMA-approved hazard mitigation plan

Watershed and Flood Prevention Operations (WFPO) Program

Program Summary

This NRCS program provides technical and financial assistance to help plan and implement authorized watershed protection and restoration projects for the purpose of flood prevention, watershed protection, public recreation, fish and wildlife protection, agricultural water management, municipal and industrial water supply, and water quality management.

Projects must be publicly sponsored and can cover watersheds up to 250,000 acres. Agricultural benefits, including those for rural communities, must account for at least 20% of the total benefits of the project.

Program Details

Application Period: Initiated through request to NRCS through their local office

Cost Share: Non-structural flood mitigation measures: 25% , Financial assistance for conservation easements: 50%*

Eligibility: State, Local, Tribal, and Territorial (SLTT) Governments

Watershed Studies Planning

Program Summary

This USACE program typically funds a two-phase study including an initial reconnaissance-level study, and a feasibility-level study. Watershed assessments under this program are encouraged to take a holistic approach, with collaboration between entities within the boundaries of watersheds to support watershed improvement and management initiatives, and implementation of effective system-wide solutions. Areas of investigation for a watershed assessment include:

- Water supply
- Watershed protection
- Ecosystem restoration
- Flood damage reduction
- Drought preparedness,
- Regional economic development

Program Details

Application Period: N/A

Cost Share: Initial: 0% up to \$100,000, and 25% for costs over \$100,000, Final: 25%

Eligibility: State, Local, Tribal, and Territorial (SLTT) Governments

Pre-Disaster Mitigation (PDM) Grant

Program Summary

This FEMA program provides funding to plan for and implement sustainable cost-effective measures which aim to reduce the risk to individuals and property from future natural hazards, while also reducing reliance on federal funding from future disasters.

These are Congressionally Selected projects, so project stakeholders must submit project requests to Congressional Representatives in order for the projects to be included in the Congressional selection process.

All applicants and sub applicants must have a FEMA-approved hazard mitigation plan at the time of application and at the time of obligation of funds unless extraordinary circumstances have been approved.

Program Details

Application Period (estimated): May 2025 – June 2025

Cost Share: 10-25%

Eligibility: State, Local, Tribal, and Territorial (SLTT) Governments

Building Resilient Infrastructures and Communities (BRIC) Grant

Program Summary

This program is a FEMA initiative that aims to help communities increase their capability and capacity for disaster resilience through financial assistance for public infrastructure projects, projects that mitigate risk to one or more lifelines, projects that incorporate nature-based solutions, and the adoption and enforcement of modern building codes.

To date, the top two project types by federal cost share include flood control and utility/infrastructure protection. Project selections also prioritize assisting disadvantaged communities in building resilience to extreme weather events.

Program Details

Application Period: September 2024 – January 30, 2025

Cost Share: 10-25%

Eligibility: State, Local, Tribal, and Territorial (SLTT) Government

BRIC Sub-Program: Direct Technical Assistance (DTA)

Program Summary

This sub-program provides support and/or connects communities to experienced mentors for project or application-specific needs and community-wide resilience needs for up to 36 months. Support can range from pre-application activities to grant closeout. Technical assistance includes support for risk assessments, community engagement, partnership building, and hazard mitigation and adaptation planning

FEMA prioritizes assistance for communities within the Justice40 initiative: federally recognized tribes, disadvantaged communities, economically disadvantaged rural communities, and community disaster resilience zones. Requests focusing on nature-based solutions and building code adoption/enforcement are also prioritized.

Program Details

Application Period: September 2024 – January 2025

Cost Share: 0%

Eligibility: Cities, towns, parishes, boroughs, counties, and special district governments, Tribes, groups of two or more communities, and territories

National Endowment for the Humanities Program

Program Summary

This is an initiative by the National Endowment for the Humanities (NEH) designed to support humanities organizations, including museums, libraries, archives, historic sites, and colleges and universities in becoming more resilient.

Activities may include energy audits, risk assessments, and consultations to establish goals and prioritize actions for reducing environmental impact and vulnerability from extreme events.

Program Details

Application Period (estimated): April 2025 – August 2025

Cost Share: 50%

Eligibility: Humanities organizations

Fire Prevention and Safety (FP&S) Grants

Program Summary

This FEMA program aims to provide critically needed resources to strengthen community fire prevention programs and enable scientific research on innovations that improve firefighter safety, health, and well-being.

The program provides funding to fire departments and non-profit organizations to carry out fire prevention education and training, fire code enforcement, fire/arson investigation, firefighter safety and health programming, strategic national projects, prevention efforts, and research and development.

Program Details

Application Period (estimated): March 2025 – April 2025

Cost Share: TBD

Eligibility: Fire departments, national, regional, state, local, Tribal, and non-profit organizations

Discussion Questions

Emergency Management Performance Grant

Program Summary

The FEMA Emergency Management Performance Grant (EMPG) provides eligible entities with the resources required for implementation of the National Preparedness System (NPS) and works toward the National Preparedness Goal of a secure and resilient nation. The EMPG's allowable costs support efforts to build and sustain core capabilities across the prevention, protection, mitigation, response and recovery mission areas.

The program focuses on equity and investing in strategies that meet the needs of underserved communities to strengthen the whole of community system of emergency management.

Program Details

Application Period (estimated): April 2025 – June 2025

Cost Share: 50%

Eligibility: State, local, Tribal and territorial emergency management agencies

Emergency Operations Center Grant

Program Summary

FEMA's Emergency Operations Center (EOC) Grant Program is intended to improve emergency management and preparedness capabilities by supporting flexible, sustainable, secure, strategically located, and fully interoperable EOCs with a focus on addressing identified deficiencies and needs.

Fully capable emergency operations facilities at the state and local levels are an essential element of a comprehensive national emergency management system and are necessary to ensure coordination and unity of effort among multiple emergency management organizations and across multiple jurisdictions during major disasters or emergencies caused by any hazard.

Program Details

Application Period (estimated): June 2025 – July 2025

Cost Share: TBD

Eligibility: State Administrative Agencies (SAA) on behalf of state and local units of governments, Tribes

State & Local Cybersecurity Grant

Program Summary

Funding from the Department of Homeland Security's State and Local Cybersecurity Grant Program (SLCGP) and the Tribal Cybersecurity Grant Program (TCGP) helps eligible entities address cybersecurity risks and threats to information systems owned or operated by—or on behalf of—SLT governments and Tribal governments.

The grant funds the development of cybersecurity plans to protect against cybersecurity risks and threats to information systems owned or operated by, or on behalf of eligible entities, as well as funding management, monitoring, tracking of information systems, applications, and user accounts owned or operated by, or on behalf of eligible entities. Funds can also be used to enhance preparation, response and resiliency of information systems.

Program Details

Application Period (estimated): August 2024 – October 2024

Cost Share: 0%

Eligibility: State, local, Tribal, and territorial (SLTT) governments

Individual Assistance & Public Assistance

Individuals and Households Program Summary

FEMA's Individuals and Households Program (IHP) provides financial and direct services to eligible individuals and households affected by a disaster, who have uninsured or under-insured necessary expenses and serious needs.

IHP assistance is not a substitute for insurance and cannot compensate for all losses caused by a disaster. The assistance is intended to meet your basic needs and supplement disaster recovery efforts.

Public Assistance Program Summary

FEMA's Public Assistance Program provides supplemental grants so communities can quickly respond to and recover from major disasters or emergencies.

The program provides funding for emergency assistance to save lives and protect property and assists with funding for permanently restoring community infrastructure affected by a federally declared incident.

Pre-Disaster Hazard Mitigation Assistance Grants

Building Resilient Infrastructure and Communities

This program is a FEMA initiative that aims to help communities increase their capability and capacity for disaster resilience through financial assistance for public infrastructure projects, projects that mitigate risk to one or more lifelines, projects that incorporate nature-based solutions, and the adoption and enforcement of modern building codes.

Application Period: September 2024 – January 30, 2025

Cost Share: 10-25% **Eligibility:** State, local, Tribal, and territorial (SLTT) governments

Flood Mitigation Assistance

Funds projects that reduce or eliminate the risk of repetitive flood damage to buildings insured by the NFIP. Selection is based on severe repetitive loss.

Application Period (estimated): October 2024 – February 2025

Cost Share: 25% **Eligibility:** States, U.S. territories, and federal recognized Tribal government can submit applications on behalf of subapplicants

Pre-Disaster Mitigation Congressionally Directed Spending

Federal funds available to state, local, tribal, and territorial governments to plan for and implement sustainable cost-effective measures. These efforts are designed to reduce the risk to individuals and property from future natural hazards, while also reducing reliance on federal funding from future disasters.

Application Period (estimated): May 2025 – June 2025

Cost Share: 10-25% **Eligibility:** State, local, Tribal, and territorial (SLTT) governments

Post-Disaster Hazard Mitigation Assistance Grants

Hazard Mitigation Grant Program (HMGP)

FEMA's Hazard Mitigation Grant Program provides funding to state, local, tribal and territorial governments so they can develop hazard mitigation plans and rebuild in a way that reduces, or mitigates, future disaster losses in their communities. This grant funding is available after a presidentially declared disaster.

HMGP Post Fire

FEMA's Hazard Mitigation Grant Program (HMGP) has Post Fire assistance available to help communities implement hazard mitigation measures after wildfire disasters.

Swift Current

The Flood Mitigation Assistance Swift Current (Swift Current) effort provides funding to mitigate buildings insured through the National Flood Insurance Program (NFIP) after a major disaster declaration following a flood-related disaster event to reduce risk against future flood damage.

Discussion Questions

- ▶ What are the infrastructure needs of your organization?
 - ▶ How would you prioritize these needs?
- ▶ What infrastructure-related projects is your organization seeking funding for?
 - ▶ Where are these projects in the development process? (Planning, Feasibility, Construction, etc.)
- ▶ What are the greatest challenges your organization faces when applying for grants?
- ▶ What resources or support do you need to be successful in the grant process?

Building Resilient Infrastructures and Communities (BRIC) Grant

Program Summary

This program is a FEMA initiative that aims to help communities increase their capability and capacity for disaster resilience through financial assistance for public infrastructure projects, projects that mitigate risk to one or more lifelines, projects that incorporate nature-based solutions, and the adoption and enforcement of modern building codes.

To date, the top two project types by federal cost share include flood control and utility/infrastructure protection. Project selections also prioritize assisting disadvantaged communities in building resilience to extreme weather events.

Program Details

Application Period: September 2024 – January 30, 2025

Cost Share: 10-25%

Eligibility: State, Local, Tribal, and Territorial (SLTT) Government

Rebuilding American Infrastructure with Sustainability and Equity (RAISE) Discretionary Grant Program

Program Summary

These grants provide capital and planning investments in surface transportation that will have a significant local or regional impact. Under the 2021 Bipartisan Infrastructure Law, funding is additionally focused on strengthening infrastructure resilience to all hazards including climate change.

The program supports road, rail, transit, and port projects that have a significant local or regional impact. It is designed to fund multi-modal, multi-jurisdictional projects that are challenging to support through traditional DOT programs.

Program Details

Application Period (estimated): January 2025

Cost Share: 20%

Eligibility: State, local governments/units of local governments, agencies, special purpose districts/public authorities, Tribes, and territories

Planning for Dam Emergencies Collaborative Technical Assistance (CTA) Program

Program Summary

This program aims to help communities at risk of dam-related flooding to better understand their risk landscape and the potential consequences of dam-related emergencies. The CTA will include planning for emergencies related to operational discharges or dam-related infrastructure failure.

Participants engage in a facilitated planning process with community stakeholders to build relationships, develop plans, and collaborate with whole community partners to achieve the goal of increased preparedness to dam-related hazards. Potential stakeholders include local, state, and federal emergency managers; dam owners and operators; private sector representatives; community planners; nonprofit partners; and other individuals and organizations facing dam-related emergencies.

Program Details

Application Period (estimated): February 2025 – May 2025

Cost Share: In-kind personnel

Eligibility: Local jurisdictions, counties states

Five Star Wetland and Urban Waters Restoration Grants

Program Summary

The NFWF Five Star and Urban Waters Restoration Program brings together students, conservation corps, citizen groups, corporations, landowners and government agencies to provide environmental education and training through projects that restore wetlands and streams. The program provides challenge grants, technical support and opportunities for information exchange to enable community-based restoration projects.

Grants seek to address water quality issues in priority watersheds, such as erosion due to unstable streambanks, pollution from stormwater runoff, and degraded shorelines caused by development.

Program Details

Application Period (estimated): November 2024 – January 2025

Cost Share: 1:0.75 match ratio

Eligibility: Non-profit 501(c) organizations, state government agencies, local governments, Tribal governments and educational institutions

Promoting Resilient Operations for Transformative, Efficient, and Cost-Saving Transportation (PROTECT) Program

Program Summary

The PROTECT Discretionary Program helps increase surface transportation resilience to natural hazards, like flooding, through planning activities, strengthening community resilience and evacuation routes, and improving coastal and natural infrastructure.

Designed for state agencies to help communities and first responders prepare for natural disasters and extreme. Nature-based solutions, such as protective wetland buffers and culverts, are eligible for this program. Requires each State to use at least 2% of its Formula Program funding each fiscal year for specified types of resilience-related planning activities.

Program Details

Application Period: Date TBD

Cost Share: 20%

Eligibility: State, local, Tribal, and territorial (SLTT) governments, and affiliated groups, planning and project organizations
